Get the Most from Your Health Plan

Welcome to Blue Cross and Blue Shield of Illinois (BCBSIL), a leader in health care benefits. We have been helping people like you get the most from their health care plans for many years.

Read this guide to learn about benefits your employer is offering. Think about how you and your family will use these benefits. Learn more about products, services and how to be a smart health care user at bcbsil.com.

Your ID Card

After you enroll, you will get a member ID card in the mail. Show this ID card when you see a doctor, visit the hospital or go to any other place for care. The back of the card has phone numbers you might need.

Blue Access for MembersSM

Go to bcbsil.com/member and sign up for the secure member website, Blue Access for Members. Find the "Log In" tab and click "Register Now." Use the information on your ID card to complete the process. On this site, you can check your claims, order more ID cards, get health information and much more.

Save Money – Stay In-Network

Using independently contracted network providers can help you save. Look at your ID card to find your network. Then go to bcbsil.com to look for doctors, hospitals and other places for care.

Call Customer Service for Help

Our team knows your health plan and can help you get the most from your benefits. Just call the toll-free number on the back of your ID card.

The PPO Plan

With the PPO plan, you can choose any doctor whenever you need care

The PPO plan offers a wide range of benefits and the flexibility to choose any doctor or hospital when you need care. The plan includes an annual deductible that you must satisfy before your benefits begin. Qualified medical expenses are applied toward your deductible.

PPO Network

Access to the large network of contracting providers is one of the many reasons to select the PPO plan. The network includes hospitals, physicians, therapists, behavioral health professionals and alternative care practitioners.

You and your covered dependents can receive care from any licensed doctor, hospital or other provider. However, when you use a contracting network provider, you will pay less out of pocket, you won't have to file any claims and you will receive the highest level of benefits. If you use a doctor outside the network, you'll still be covered, but your out-of-pocket costs may be significantly higher.

Medical Care

Your benefits may include coverage for*:

- physician office visits
- breast cancer screenings
- cervical cancer screenings
- inpatient hospital services
- muscle manipulation services
- outpatient hospital services
- physical, speech and occupational therapies
- outpatient surgery and diagnostic tests
- infertility treatment
- maternity care
- behavioral health and substance abuse
- hospital emergency medical and accident treatment

To find a contracting doctor or hospital, just go to **bcbsil.com** and click on the Find a Doctor or Hospital tab to use the Provider Finder® tool, or call BlueCard® Access at **800-810-BLUE (800-810-2583)** for help. Once you become a member, you can also call the toll-free Customer Service number on the back of your member ID card.

Where to Go for Care

What do you do if your clutch player breaks an arm in the big game? Or you slice your finger chopping veggies? Or have stomach cramps after last night's sushi date? Often the choice is clear. If you have signs of a heart attack, it's best to go to the emergency room. But what if you have a sore throat? Or lower back pain?

Knowing where to go can make a big difference in the cost of your care — especially when you use in-network providers.

We make it easy to find independently contracted, in-network providers near you:

- Go to **bcbsil.com** and click **Find Care**
- For personalized search results, log in or register at **bcbsil.com** and search in Blue Access for MembersSM
- Call Customer Service at the number on your ID card

Doctor

Is your blood pressure high? Are allergies making you miserable? Can't sleep? Your go-to provider is a good place to start. Some even offer telemedicine. If you need a specialist, your doctor will tell you.

Good for: health exams, shots, cough, sore throat

Wait time: check with office

Cost: in network \$ out of network \$\$

Retail Health Clinic

Need a flu shot? Feel queasy? Have an earache or rash? Many grocery stores and pharmacies have on-site medical clinics. Some may even see patients evenings, weekends and holidays.

Good for: headache, stomach ache, sinus pain

Wait time: check with clinic

Cost: in network \$ out of network \$\$

Urgent Care Center

Sprain your ankle? Have a monster migraine? Can't stop coughing? These centers offer non-emergency care when your doctor's office isn't open evenings, weekends or holidays. Some may offer online booking.

Good for: back pain, vomiting, animal bite, asthma

Wait time: often less than ER

Cost: in network \$\$ out of network \$\$\$

Hospital ER

Worried you may be having a heart attack? Did you black out after a nasty fall? ER doctors and staff treat serious and life-threatening health issues 24/7.

Good for: chest pain, bleeding, broken bones

Wait time: varies

Cost: \$\$\$\$

Know the Difference: Freestanding ER vs. Urgent Care Center

Freestanding ERs look a lot like urgent care centers, but may not be affiliated with an in-network hospital. That means you could end up with a hefty bill (or several bills). You might even be sent to a hospital ER for care! Here are ways to spot a freestanding ER:

1. Look for "Emergency" on the building exterior.
2. Check the hours. If it's open 24/7, it's a freestanding ER. Urgent care centers close at night.
3. Confirm it's not connected to a hospital.
4. Ask if it follows the copay, coinsurance and deductible payment model.

If you need emergency care, call 911 or seek help from any doctor or hospital immediately.

Note: Many health care providers offer telehealth appointments. Ask your preferred provider if they do and if it is appropriate for your condition(s).

Members are strongly advised to search and verify the network status of any health care provider or facility before receiving care to avoid unexpected charges. Network participation may change, and it is the member's responsibility to review whether a provider is in network at the time of service.

Examples given for each care scenario are not intended as an exhaustive list. You may seek care and be treated for other conditions or illnesses other than those cited as examples.

Information provided in this filer is not intended as medical advice, nor meant to be a substitute for the individual medical judgment of a doctor or other health care professional. Please check with your doctor for individualized advice on the information provided. Coverage may vary depending on your specific benefit plan and use of network providers. For questions, please call the number on your member ID card.

Medical Plan Frequently Asked Questions

Q. Are my medical records kept confidential?

A. Yes. Blue Cross and Blue Shield of Illinois is committed to keeping all specific member information confidential. Anyone who may have to review your records is required to keep your information confidential. Your medical records or claims data may have to be reviewed (for example, as part of an appeal that you request). If so, precautions are taken to keep your information confidential. In many cases, your identity will not be associated with this information.

Q. Who do I call with questions about my benefits?

A. Call the toll-free Customer Service number on your member ID card.

Q. How do I find a contracting network doctor or hospital?

A. Go to **bcbsil.com** and use Provider Finder®, or call Customer Service at the toll-free number on your member ID card.

Q. What do I do when I need emergency care?

A. Call 911 or seek help from any doctor or hospital. BCBSIL will coordinate your care with the emergency provider.

Some options for non-emergency care include:

- **Your doctor's office** for health exams, routine shots, colds, flu and other minor illnesses or injuries.
- **Walk-in retail health clinics are available in retail stores when referred by your Primary Care Provider/Medical Group for in-network coverage.** Many have a physician assistant or nurse practitioner who can help treat ear infections, rashes, minor cuts and scrapes, allergies, colds and other minor health problems.
- **Urgent or immediate care clinics** for more serious health issues, such as when you need an X-ray or stitches.

Urgent Care or Freestanding Emergency Room?

Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers, but costs are higher, just as if you went to the ER at a hospital. Here are some ways to know if you are at a freestanding ER.

Freestanding ERs:

- Look like urgent care centers, but have EMERGENCY in the facility name.
- Are separate from a hospital but are equipped and work the same as an ER.
- Are staffed by board-certified ER physicians and are subject to the same ER copay.
- Find urgent care centers¹ near you by texting² **URGENTIL** to **33633** and then type in your ZIP code.

Q. What should I bring to my first appointment with a new doctor?

A. Your first appointment is an opportunity to share information about your health with your new doctor. Bring as much medical information as possible, including:

- **Medical records and insurance card** — If you are undergoing treatment at the time you change doctors, your medical records are important to your new doctor. Your insurance card provides information about copayments, billing and Customer Service phone numbers.
- **Medications** — Give your new doctor information about prescription and over-the-counter medications, including any herbal medications you take. Be sure to include the name of the medication, the dosage, how often you take it and why you take it.
- **Special needs** — Make a list of any equipment or devices you use including wheelchairs, oxygen, glucose monitors and the glucose strips. Be prepared to explain how you use them, not only to make sure you have the equipment you need, but also to make sure that there is no disruption in your care.

Q. What questions should I ask if I am selecting a new doctor?

A. In addition to preliminary questions you might ask a new doctor — such as “Are you accepting new patients?” — here are some questions to help you evaluate whether a doctor is right for you.

- What is the doctor’s experience in treating patients with the same health problems that I have?
- Where is the doctor’s office? Is there convenient and ample parking, or is it close to public transportation?
- What are the regular office hours? Does the office have drop-in hours if I have an urgent problem?
- How long should I expect to wait to see the doctor when I’m in the waiting room?
- Are routine lab tests and X-rays performed in the office, or will I have to go elsewhere?
- Which hospitals does the doctor use?
- If this is a group practice, will I always see my chosen doctor?
- How long does it usually take to get an appointment?
- How do I get in touch with the doctor after office hours?
- Can I get advice about routine medical problems over the phone or by email?
- Does the office send reminders for routine preventive tests like cholesterol checks?

Q. What if I’m already in treatment when I enroll and my provider isn’t in the network?

A. We’ll work with you to provide the most appropriate care for your medical situation, especially if you are pregnant or receiving treatment for a serious illness. You may still be able to see your out-of-network provider for a period of time. Call the toll-free Customer Service number on your member ID card for more information.

¹The closest urgent care center may not be in your network. Be sure to check Provider Finder to make sure the center you go to is in-network.

Other Benefits for Non-HMO Plans

Your health care benefit plan travels with you wherever you go – across the country or around the world.

Preventive Care

Your coverage may include preventive care benefits for children and adults, including physical exams, diagnostic tests and immunizations. Check your group plan for specific coverage.

Emergency Care

If you, as a prudent layperson (with an average knowledge of health and medicine) need to go to the emergency room of any hospital, your care will be covered subject to your plan's deductible and any applicable copayments or coinsurance. In an emergency, you should seek care from an emergency room or other similar facility. Call 911 or other community emergency resources to obtain assistance in life-threatening situations. Your group plan may require that you, a family member or friend contact Blue Cross and Blue Shield of Illinois (BCBSIL) if you are admitted to the hospital.

National Coverage

You have nationwide access to contracting providers in networks linked through the BlueCard® program when you or your covered dependents live, work or travel anywhere in the country. The national network includes most physicians and hospitals in the country. Be sure to use a BlueCard network provider to receive the highest level of benefits.

With the BlueCard program, there are two ways to locate contracting doctors and hospitals:

- Visit the website at **bcbsil.com** and click on the Find a Doctor or Hospital tab to use the Provider Finder® tool or call BlueCard® Access at **800-810- BLUE (800-810-2583)** for help. Maps and driving directions are also available.
- Call Customer Service at the toll-free number on the back of your member ID card.

Reconstructive Surgery Following a Mastectomy

Federal and State of Illinois legislation require group health plans and health insurers to provide coverage for reconstructive surgery following a mastectomy. Specifically, these laws state that health plans that cover mastectomies must also provide coverage in a manner determined in consultation with the attending physician and patient for reconstruction of the breast on which the mastectomy has been performed, surgery and reconstruction of the other breast to produce a symmetrical appearance, and prostheses and treatment of physical complications for all stages of mastectomy, including lymphedemas.

Your coverage may also include benefits for baseline and annual mammograms. Check your group plan documents for details.

Illinois Dependent Eligibility Mandate

Under Federal law, your dependents are eligible for health and dental coverage up to the dependent limiting age and may not be denied coverage due to marital, student or employment status before age 26. Check with your employer for additional details regarding eligibility requirements. In addition, eligible military personnel may not be denied coverage before age 30 under Illinois law. If you elect Blue Choice SelectSM coverage, your dependents must live within the defined service area.

This Illinois law applies to all individual plans and insured group medical and dental plans, as well as self-insured municipalities, counties and schools. The law does not apply to self-funded national account groups or local non-municipal self-funded groups. If you have questions about this law, contact your benefits administrator.

International Coverage

When you travel outside the United States and need medical assistance services, call **800-810-BLUE (800-810-2583)** or call collect to **804-673-1177** for information. Blue Cross and Blue Shield has contracts with doctors and hospitals in more than 190 countries. An assistance coordinator, in conjunction with a medical professional, can arrange your doctor's appointment or hospitalization, if necessary.

Providers that participate in the Blue Cross Blue Shield Global[®] Core[®] program, in most cases, will not require you to pay up front for inpatient care. You are responsible for the out-of-pocket expenses such as a deductible, copayment, coinsurance and non-covered services. The doctor or hospital should submit your claim.

You also have coverage at non-contracting hospitals, but you will have to pay the doctor or hospital for care at the time of service, then submit an international claim form with original bills. Call Customer Service at the toll-free customer service number on your member ID card for the address to send the claim. You can get a claim form from your employer, Customer Service or online at **bcbsil.com**.

GLOSSARY OF TERMS - We have described some of the terms used here to help you understand them, but you should make sure to read your benefit plan materials if you have questions.

Amount Billed: The amount your provider billed for the service(s) rendered.

Amount Covered (Allowed): Discounts, reductions, and amount covered (allowed) reflect the terms of your plan, and in the case of an in-network provider, the savings we have negotiated with your provider. Your deductible, coinsurance and copay are based on the allowed amount and the terms of your plan. Your share of coinsurance is a percentage of the allowed amount after the deductible is met.

Coinsurance: The percentage of the allowed amount you pay as your share of the bill. For example, if your plan pays 80% of the allowed amount, 20% would be your coinsurance.

Copay Amount (Also known as Copayment): The set fee you pay each time you receive a certain service. Some plans do not have copayments.

Deductible: The amount, if any, you must pay before we start paying contract benefits. You do not send this amount to us. We subtract this amount from covered expenses on claims you and health care professionals send us. Some services can be covered before the deductible is met.

Non-Participating Provider: An out-of-network provider who does not accept rates for services we set to keep your costs down.

Out-of-Pocket Limit (Maximum): Once you pay this amount in deductibles, copayments and coinsurance for covered services, we pay 100% of the allowed amount for covered services for the rest of the benefit period. Individual policies may vary.

Participating Provider: An in-network or out-of-network provider who accepts agreed-upon rates for services.

Your Total Costs: This is the sum of your copay, deductible and coinsurance. It also includes any amounts not covered by your health plan. Amounts that a non-participating provider may bill you are not part of this.

Live Well with the Well onTarget Member Wellness Portal

The Well onTarget® Member Wellness Portal at **wellontarget.com** provides you with tools to help you set and reach your wellness goals. The portal is user-friendly, so you can find everything you need quickly and easily.

Explore Your Wellness World

When you log in to your portal, you will find a wide variety of health and wellness resources, including:

- The Health Assessment (HA)
- Self-Management Programs
- Health trackers
- Trusted news and health education content

See Your Stats in a Flash

Everything you want to see quickly is on your dashboard. The dashboard shows all of your Well onTarget programs. You can see where you are today compared with where you were when you started. You can also read the latest health news, check your activity progress and more.

Take a Snapshot of Your Health

The HA asks you questions about your health and habits.¹ You then get a Personal Wellness Report. This report suggests ways to make positive lifestyle changes. Your report can also help you decide which Well onTarget program to start first to get the most benefit. You can even print a Provider Report to share with your doctor.

Blue PointsSM Program²

Small rewards may motivate you to make positive changes to meet your wellness goals. With Well onTarget, you can earn Blue Points for making healthy choices. If you enroll in the Fitness Program or take your HA, you earn points.³ You can also earn points when you achieve milestones in the Self-Management Programs. Redeem your Blue Points for gift cards for yourself or family and friends.⁴

Health Tools and Trackers

Knowing what you eat and how much you work out can help you reach your goals. But keeping track of all you do can be time-consuming. To make it easy, the portal has trackers that let you record how much sleep you get, your stress levels, your blood pressure readings and your cholesterol levels.

The portal also offers a symptom checker. When you don't feel well, this tool can help you decide if you should see a doctor.

Self-Management Programs

These programs consist of:

1. Interactive programs with learning activities and content that focus on behavioral changes to reinforce healthier habits.
2. Educational programs that inform about symptoms, treatment options and lifestyle changes.

These two learning methods allow you to study on your own time and may help you get to the next level of wellness.

Topics include nutrition, weight management, physical activity, stress management, tobacco cessation and more.

Fitness Tracking

Earn Blue Points for tracking your fitness activity using popular fitness devices and mobile apps.
